tone Query R	oport Queue User Management Help Quick Links	Logisst				
Recipient Query	Florida Practitioners' Query Site					
Search History Query	Query Creation Tip					
Prescriber DEA Query	Make your gany as general as possible and then thit down to more specific information once you, have dendfied the period for whom you are loading. For example, you mout enter the aim neme of the individual, the first after and a bird state, and then disk filed. When the period any ends are displayed on the somen, you can by fight the period that you wait to gany and then disk blank to adven the gany for poroaning.					
	If you enter a specific birth date for an individual and the query results are bi date range, for example, within two years of birth date, to create a query with	ark, slick the Within field just below the Date of Birth field and resubmit the query with a wider throader search oriteria.				
	Once you have submitted the query for processing, you will be redirected to you requested. If the Job Sequence ID is not a hyperfink, click your browser	the Report Queue. In the Report Queue, click the Job Sequence ID number to view the report a reflexit button. The Job Sequence ID will appear as a hyperink when the report is ready for				

Requestor Information

* Disclosing State : Alabama 💙	
Requestor Role : Physician	
Recipient Information	
* Last Name :	
* First Name :	
Identifier (SSN, Driver's License	
#, etc.) :	
* Date of Birth : mm/dd/yyyy	
Gender : All	

The Other State Query Form is displayed:

5 Enter the required information (noted by asterisks) and click the next button at the bottom of the form.

6 The Patient Advisory Report will be displayed on the screen in web output. You may also elect to view the report as a PDF, CSV or map file by selecting the appropriate option at the bottom of the report.

NOTE: Other state queries are limited to exact match on last name, first name and date of birth. Florida data is not included in the search results for an other state query. You must run a separate recipient query for Florida data.
